

# 2021 Boehringer Ingelheim/MU Dental CE Weekend

August 28, 2021

University of Missouri | Columbia, Missouri

For full information conference details, go to:

<https://cvent.me/zPbWwz>

## Speakers

Dr. Richard Meadows

Dr. Meagan Brophy-Rau

Dr. Nick Perez

Dr. Eva Ulery

Kacey Lundy, RVT

Michelle Biermann, RVT

Dentistry is a profit center for veterinary practices. If it is not for you, then let us help you change that. Dealing with the dental needs of your clients will also result in an improved quality of life for them (and hopefully you) - **what a deal!**

### For Veterinary Technicians:

A technician plays an important role in veterinary dentistry. We are our patient's advocate, and oral health is essential for a long and healthy life. Let us help you gain confidence with dentistry and improve your practice's productivity.

### Why attend?

These sessions will provide the knowledge and skills to become a vital member of your dental team!

Learn the steps of a complete dental cleaning, dental charting, obtaining diagnostic dental radiographs, proper use of ultrasonic and hand scalers, instrument maintenance and sharpening, how to perform nerve blocks, and improve client education.

### Important Info:

- Attendance at the lectures is required for entry into the wet labs.
- We will provide you access to electronic files including "how to" guides for the procedures we will cover in the tech and veterinarian labs (e.g., maintaining equipment, sharpening equipment, taking and interpreting oral radiographs, cleaning, polishing and charting, saving fractured teeth, extracting teeth, raising flaps and common periodontal surgery procedures).
- Register today! Attendance to the wet lab will be limited to 24 veterinary technicians.
- This may be the last time Dr. Meadows runs this event; Dr. Brophy anticipates continuing the tradition after this year.

## Program for Veterinary Technicians 8 hours CE

### Saturday, August 28. ....
